

Window Film from MoonRaker™

BLACK STAINLESS METALIZED™ 5

Performance Data

Visual Light Transmittance	7.1 %
Visual Light Reflectance	1.55 %
Total Solar Transmittance	26.9 %
Total Solar Reflectance	3.0 %
Total Solar Absorbance	70.1 %
Total Solar Energy Rejected	51.2 %
UV Transmittance	2↓%

Physical Properties

Thickness of Polyester Film (mil)	1+0.5
Scratch Resistant Coating	2H
Peel Strength (kg/inch)	0.7

This sheet contains technical data for use as a guideline. Data shown is nominal and for estimating purposes only. Normal variations will occur and are dependent on numerous conditions including substrate, application, processing conditions and the actual glass the product is applied to. Data should not consider this information as absolute. SCT readings may vary depending on testing equipment. The maker does not expressly warrant or guarantee that the actual finished product will provide these users test results.
